

BYRON COMMUNITY PRIMARY SCHOOL

Curious, creative learners

Strategic Priorities

2021 - 2023

OUR
MISSION

To be a community school that inspires
curious, confident and compassionate
individuals.

To embrace creative approaches to
education and sustainability.

Small footprint. Big Impact.

OUR
VALUES

- Freedom with responsibility
- Realisation of academic potential
- For the love of learning
- Innovation and creativity
- Self awareness, respect & compassion
- Community participation

STRATEGIC PRIORITIES

Actively serve the Byron Community

Create a step change in sustainability practice & education

Re-energise family contribution

Develop & Implement a Master Plan

Actively Serve the Byron Community

Actively serve the Byron Community

Embed deep learning opportunities that authentically and actively promote service to the community into the BCPS curriculum.

Create a step change
in sustainability
practices & education

Create a step change in sustainability practices & education

Audit current practices and develop an incremental sustainability improvement plan to be implemented over the next 3 years.

Embed sustainability and environment care into teaching and learning programs.

Re-energise family contribution

Re-energise family contribution

Seek ways parents and carers can actively contribute to the School and the wider community.

BYRON COMMUNITY PRIMARY SCHOOL
Curious, creative learners

Develop and implement a Master Plan

Develop and implement a Master Plan

Consult with the school community to develop a master plan for future development of infrastructure that supports the BCPS mission.

Strategy Plan

| | PROBLEMS WE ARE SOLVING OR OPPORTUNITY WE ARE GOING AFTER | SUPPORT WE NEED TO ACHIEVE THIS GOAL | HOW WILL ACHIEVING THIS GOAL HAVE A GREAT IMPACT? | HOW WILL WE KNOW WE HAVE ACHIEVED THIS GOAL? |
|------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| ACTIVELY SERVE THE BYRON COMMUNITY | Extending the students' learning to encompass opportunities to make a difference in their lives and the lives of others | Professional development in deep, inquiry based learning Collegial planning time to develop teaching and learning programs | Student academic outcomes along with citizenship qualities will be strengthened | Development & implementation of teaching programs increased student engagement & outcomes Positive feedback on impact community projects |
| CREATE A STEP CHANGE IN SUSTAINABILITY PRACTICE & EDUCATION | Reducing the Schools environmental footprint Educating our students so they can make considered choices and take action towards sustainable living | Budget to cover cost of audit Parent volunteers to assist with implementation of student eco projects | Environmentally conscious community that takes positive action at school and beyond | Results of pre/post audit Development & implementation of programs/projects |
| RE-ENERGISE PARENT CONTRIBUTION | Reduction in the level of parent involvement in the school due to COVID restrictions identification of ways parents can assist staff and students as well as wider community | Teachers to identify ways they would like to be supported and to be open to welcoming parents into their classrooms Volunteer parents to champion the 'recruitment' of assistance | Strengthened relationships between all stakeholders Increased support for student learning Improved facilities and programs for students | Parent contribution records will show increased involvement |
| DEVELOP & IMPLEMENT A MASTER PLAN | Ageing school facilities Limited outdoor play space Facilities to support innovative teaching and learning | Experienced architect to oversee consultation project Input from all stakeholders: staff, parents & students | Learning environments that support creative and innovative practices More outdoor play space | Plans developed |
